VIETNAM BIOTECH ECOSYSTEM

From Research and Innovation to Commercialization and Global Markets.

POLICY R&D SUPPORT

Government backing
Research Institutes
Universities driving innovation

INDUSTRIAL COMMERCIALIZATION

High-tech farms
Agri-livestock enterprises
Biotech startups.

GLOBAL INTEGRATION

Technology Transfer
Distribution and Value Chain
Export Markets

WHAT YOU'LL GAIN

Connect with the entire value chain:

Engage directly with **5,000+** trade visitors, high-tech farm owners, R&D directors, and decision-makers seeking bio-solutions across ASEAN.

Accelerate commercialization:

Showcase your technologies to active buyers sourcing reliable suppliers for veterinary vaccines, biological inputs, and genetic solutions.

Unlock government & academic projects:

Build strategic partnerships with **top research institutes and government authorities** to participate in national biotech modernization programs.

Stay ahead of market trends:

Gain critical market insights on **Vietnam's regulatory updates** and high-growth opportunities through pre-arranged B2B matchmaking and expert-led seminars.

ACTIVITY HIGHLIGHTS

TESTIMONIALS

"This is the first time a Biotech exhibition has been organized in Vietnam, and we decided to participate right away. The number of visitors was very impressive, and the attendees were highly specialized and professional, rather than general visitors as seen at many other exhibitions. We highly appreciate the organization and the overall quality of this exhibition"

Mr. Irdaus Sabaruddin
Research & Production Manager_BIOMAX

"This is our first time participating in the exhibition, and we are very excited to have the opportunity to meet many partners and buyers here."
